- Providing adequate support to caregivers
- Quality care outside of the institution
- Impacting physician and staff engagement

Workshops:

A Changing the Conversation to Put Patients at the Centre of your Care

B Employ Better Data Collection to Improve your Clinical Outcomes

www.PatientExperienceSummit.com
Welcome to Canada’s first and longest-running conference on patient experience.

This is the only event dedicated to patients and professionals from across the country in coming together to address important issues in patient- and family-centred care.

In the wake of the Patients First Act and medical-assistance in dying (MAID), funding cutbacks across the board, and new Accreditation standards, it is now more important than ever for you to put your patients at the centre of your care.

Discover where PFCC is heading on a national level, and what your organization needs to do to improve. Tackle challenges surrounding patient diversity, unnecessary care, and the sustainability of patient experience programs. Move beyond simple consultation and develop true partnership with patients and their families.

We look forward to you joining us for two days of learning, inspiration, and relationship-building.

Healthcare providers sometimes struggle to grasp what is important to their patients. Master a new philosophy and framework to incorporate patient experience into what you do. In this interactive session, gain insights to:

1. Change your approach to delivering care
2. Identify your client’s priorities
3. Apply the framework to your care delivery
4. Work within a limited timeframe

Approach communication differently to discover what your patients truly want and need.

Joy Klopp,
Director, Contracts, Quality and Risk, and Privacy Officer,
Visiting Homemakers Association

Anne Wojtak,
Executive Lead for Transformation & PMO,
Toronto Central Local Health Integration Network

The volume and diversity of patient experience data can be overwhelming. Put your data into action to determine your patients’ needs. In this interactive session, gain knowledge to:

1. Identify which information is essential to collect
2. Discover the measurement tools that best serve your organization and patient population
3. Develop reliable systems for collection
4. Track improvement

Sharpen your data collection skills to reduce your quality improvement lag.

Family Physician and Health Services Researcher,
St. Michael’s Hospital

Samantha Davie,
Quality Improvement and Decision Support Specialist,
St. Michael’s Hospital

Employ People Powered Health to Improve your Quality of Care

Accreditation Canada has evaluated over 7000 healthcare sites and services across the country. Exceed accreditation standards by putting patients at the forefront of your care. Come prepared to:

- Review HSO and Accreditation Canada’s new strategies
- Implement best practices to enhance person-centred programs
- Ensure ongoing quality and safety in your organization

Use accreditation as a chance to embed patient-centred care into everything you do.

Patricia Sullivan-Taylor,
Executive Lead, Policy and Partner Engagement,
Health Standards Organization and Accreditation Canada

Improve your Patient Outcomes By Increasing Access to Information for the Whole Care Team

Research proves the strong relationship between a healthcare team’s ability to communicate quickly and openly and improved patient outcomes as well as system-wide efficiencies. Determine how secure messaging can accelerate care, improve outcomes, and unite your teams around patient-centred care. Walk away with a plan to:

- Increase clinic efficiency to improve patient access to care
- Connect your care team to align with patient expectations
- Customize communications around the needs of your patients and team

Use secure messaging to open communication, access to information, and improve patient outcomes.

10:30 AM  Morning Networking Break
Connect with conference speakers and fellow attendees. Secure important new contacts and talk about crucial developments in your field.

11:00 AM  Case Study: Faces of Healthcare

Use Storytelling to Bridge the Gap Between Healthcare Policy and Practice
Policy makers and managers can often be removed from the realities of our healthcare system. Realize the value of patient stories to improve your quality of care. Gain insights to:

- View patient stories as a resource
- Use patient experiences as an opportunity for improvement
- Integrate storytelling and evidence

*Use patient stories to point you in new directions for evidence and to solve problems.*

Andreas Laupacis, MD, MSc, BA, Executive Director of the Li Ka Shing Knowledge Institute, St. Michael’s Hospital

---

**CHOOSE YOUR TRACK**

*Delegates will have the option to choose between two tracks. Source specialized information most pertinent to your priorities and interests. Interact with fellow peers, exchange ideas, and take away solutions to your biggest concerns.*

---

**GETTING STARTED**

11:30 AM
Establishing meaningful engagement projects takes strategic planning. Develop standards to form and maintain impactful patient engagement programs. Communicate with your peers on:

- System transformation
- Executive and staff buy-in
- Engagement frameworks
- Patient recruitment
- Patient support and training

Create your own engagement program to initiate real progress in patient-centred care.

- Karima Velji, Vice President of Clinical Services, Ontario Shores Centre for Mental Health
- Durhane Wong-Rieger, President, Canadian Organization for Rare Disorders

---

**TAKING THE NEXT STEP**

11:30 AM
Many organizations have engagement programs, but more must be done to sustain and improve them. Connect with other providers to truly empower patients. Trade ideas on:

- Continuous improvement
- Preventing tokenism
- Accountability
- Fostering innovation
- Sustainability
- Consistent engagement

Transform the way care is delivered to grow and sustain your patient experience.

- Sholom Glouberman, Philosopher in Residence, Baycrest Centre for Geriatric Care
- Anne Campbell, VP Partnerships and Chief Nurse Executive, Huron Perth Healthcare Alliance
- Mario Di Carlo, Patient Advisor

---

12:30 PM  NETWORKING LUNCH
Join the conference speakers and your peers for a relaxing luncheon.

---

“This has been an excellent function. It is always useful to take off the localized “blindness” and find new perspectives and also find that we are not alone in our issues and challenges.”

1:30 PM
Transforming a heavily-organized healthcare system is difficult. Brainstorm with your peers to increase staff and physician engagement in patient experience. Share thoughts on:

- Employee screening
- Performance management
- Organizational communication
- Physician buy-in
- Patient-provider relationships
- Nurse training

Get everyone in your organization on board and committed to a culture of PPC.

Raj Sewda, Vice President, Patient Care, Chief Nursing Executive & Chief Privacy Officer, Runnymede Healthcare Centre
Kiki Ferrari, Interim Executive Vice President; Clinical Services, William Osler Health System

1:30 PM
Family and friend caregivers represent almost 80% of healthcare providers in Canada. Support caregivers to improve patient quality of care at home and reduce re-admissions. Come together for solutions on:

- Philosophy of care
- Community support
- Caregiver needs
- Quality care at home
- Respite care

Provide caregivers with the tools and resources to improve your quality and clinical outcomes.

Stacey Ryan, Client Voice Liaison, Visiting Homemakers Association

Christine Penney, Vice President of Community Programs, Cornwall Community Hospital
Sharon Duffey, Family Peer Support Worker, Community Addiction & Mental Health Services, Cornwall Community Hospital

2:30 PM  AFTERNOON BREAK
Network with conference speakers and fellow attendees.

PLENARY SESSIONS CONTINUE

3:00 PM  Spotlight: InnoCare
Leverage Software, Data, and Charting Technology to Improve your Patient Outcomes

Much of a patient’s treatment and recovery happens outside of your healthcare organization. Use cutting-edge healthcare technology to ensure quality care throughout your patient’s treatment journey. Gain fresh ideas to:

- Better engage your patients in their treatment plans
- Send progress reports to patients, families, and doctors
- Utilize data to better understand your patients and increase their satisfaction

Integrate healthcare technology in your clinician practice to improve patient experience.

Heather Shantora, CEO, pt Health and InnoCare Ltd.

3:15 PM  Case Study: Medical Assistance in Dying
Facilitate Communication to Protect the Rights of your Patients and Doctors

Miscommunication is the leading cause of malpractice lawsuits. Gain perspective on new MAID legislation to safeguard the interests of your patients and doctors. Secure insights to:

- Develop patient-centred communication strategies
- Know where you stand on participation and compliance
- Maintain patient-provider trust

Take a patient-centred approach to MAID to ensure everyone’s rights are respected.

Sally Bean, Director, Ethics Centre & Policy Advisor, Sunnybrook Health Sciences Centre
3:45 PM  World Café: Interactive Peer-to-peer Discussion

Connect with your Peers to Identify Solutions to Cultivate Meaningful Engagement

Tap into the knowledge of fellow speakers and attendees to tackle challenges facing your organization. Engage in discussion on what you can do to improve patient experience. Collaborate to:

- Identify cost-effective solutions
- Cultivate a patient-prioritized environment
- Implement change from the top-down and bottom-up

Take away experienced perspectives to bring change to your healthcare organization.

4:15 PM  Case Study: Choosing Wisely Canada

Reduce Unnecessary Care to Improve Clinical Quality and Avoid Harm

Up to 30% of medical care Canadians receive is unnecessary. Engage clinicians and patients in conversations about unnecessary procedures to ensure your patients receive quality care. Build a roadmap to:

- Promote the concept that "more is not always better"
- Encourage patients to ask questions about their care
- Implement opportunities to detect unnecessary tests, treatments, and procedures

Consider opportunities to avoid unnecessary care, reduce harm, and improve quality!

Karen Born, PhD, Knowledge Translation Lead, Choosing Wisely Canada, Assistant Professor, Institute of Health Policy, Management and Evaluation, University of Toronto

4:45 PM  Stop-start-continue

Take this opportunity to reflect on what your organization can do to improve patient engagement. What will it start doing? What will it stop? And what can it continue to ensure the best possible care for your patients?

5:00 PM  Health and Wellness Social

Enjoy a variety of relaxing and healthful activities alongside your partners in patient-centred care. Visit our different stations and recharge your batteries. Meet new people, reflect on the day, and unwind!

Join the conversation at LinkedIn: Patient Experience Forum
Growing demands on hospital care make it difficult to advance patient experience. Brainstorm solutions with your peers to improve outcomes. Take back strategies on:

- Emergency room management
- Intake and outtake orientations
- Discharges
- Incident management
- Inter-departmental communication

Create a plan to drive improvements in institutional care.

Laura Williams, Director of Client and Integrated Care, University Health Network

Judy Baxter Foreman, Patient/Client Experience Coordinator, Hamilton Health Sciences

The demand for home and community care is expected to grow as the population ages. Collaborate with fellow attendees so your organization can prepare for the future. Create an action plan for:

- Tight budgets
- Home support services
- Community resources
- Transitions from hospital to home care

Map out your plan to anticipate the needs of the future.

Nancy Lefebre, SVP Chief Clinical Executive, Saint Elizabeth Healthcare

Candace Chartier, CEO, Ontario Long Term Care Association

Delegates will have the option to choose between two tracks. Source specialized information most pertinent to your priorities and interests. Interact with fellow peers, exchange ideas, and take away solutions to your biggest concerns.

12:00 PM    NETWORKING LUNCH

Join the conference speakers and your peers for a relaxing luncheon.

PAST PROGRAM:

1:00 PM     Case Study: Patients First Act

Identify What New Legislation can do to Support your Patient Experience Strategy

Ontario passed Bill 41 in December 2016, but legislation takes time to create change. Determine where policy is headed to create and sustain your patient experience. Gain practical insights to:

- Enhance a sense of accountability
- Create healthcare plans with patients and families
- Increase focus on cultural sensitivity

Align yourselves with policy to ensure patients are at the centre of your healthcare plan.

Nancy Naylor, Associate Deputy Minister, Policy and Transformation, Ontario Ministry of Health and Long Term Care

1:30 PM     Case Study: BC Office of the Seniors Advocate’s Residential Care Survey

Giving Residents a Voice to Drive Improvements in Long Term Residential Care

The BC Office of the Seniors Advocate and the BC Patient-Centred Measurement Working Group partnered to conduct a province-wide coordinated survey using a volunteer management model to approach over 27,000 residents living in 292 care homes across the province. Learn how the project collected quantitative and qualitative feedback to understand quality of care from the perspective of residents in all publicly funded care homes in BC. Gain insights to:

- Adapt measurement methods to accommodate residents with cognitive impairment
- Engage community and clinical stakeholders to ensure project success
- Communicate results of resident perceptions of care to promote both local and system level improvement

Lena Cuthbertson, Provincial Executive Director, Office of Patient-Centred Measurement & Improvement, BC Ministry of Health/Providence Health Care

Lillian Parsons, Project Manager, Patient-Centred Performance Measurement and Improvement, Providence Health Care

2:30 PM | Industry Expert: Accessibility

Increase Accessibility to Services and Information to Empower your Patients

One in five Canadians report waiting over seven days to see a doctor. Reduce patient wait-times and increase accessibility to health services and information. Gain insights to:

- Fast-track your patient’s access to test results
- Inform your patients on their health information
- Prepare your patients for their doctor’s appointments

Give your patients direct access to their health information to improve accessibility.

3:00 PM | Case Study: Holland Bloorview

Identify and Develop Communication Strategies to Empower Patients from Every Background

Patients from different backgrounds feel unable to connect with providers, while doctors worry about offending those same patients. Break down your cultural barriers so all parties can communicate openly. Gain practical insights to:

- Go “off-script” with your patients
- Tune into your patient’s narratives
- Enrich patient-doctor relationships

Transform your interactions to communicate with a diverse patient and community.

Dr. Mohammad Zubairi,
MD, MEd, FRCP, Developmental Paediatrician,
Holland Bloorview Kids Rehabilitation Hospital, University of Toronto

3:30 PM | Panel: Patients Speak Out!

Engage with Patients to Drive Meaningful Change in your Organization

Patient partners weigh-in on what they liked and disliked about care they have received. Learn from their real-life experiences to improve your own PFCC programs. Get inspired to:

- Manage patient incidents better
- Partner with your patients successfully
- Apply feedback to achieve better outcomes

Listen to what patients are saying to take action in your healthcare organization!

Shirley Fenton, Vice President,
National Institute of Health Informatics

Cathy Bachner, Patient Partner,
Huron Perth Healthcare Alliance

Crystal Chin, Patient Partner,
Patients Canada
